Constitutional and Political History

—OF THE—

UNITED STATES OF AMERICA.

BY DR. H. VON HOLST.

[From the International Review.]

The work is not so flattering to our national vanity as De Tocqueville's "Democracy in America," but it is much more profound and thorough, and in like proportion more valuable. It is the most valuable work on the subject which has yet been written.

[From the New York Herald.]

We feel that we have done but scant justice to the great quantity of valuable thoughts and information which this thorough, original, and suggestive book contains.

[From the Central Law Journal.]

No student of the American political system can afford to be unacquainted with it. It is rich in historic materials, and abounds with profound reflections.

[From the New Orleans Picayune.]

We doubt if any writer, native here, could have given to his countrymen so clear, so impartial, so severely judicious an exposition of the subject treated.

4 THE BIG FOUR. 4

It is an acknowledged fact that the most important, as well as the most lucrative, branch of litigation is that of Corporation Law, and it is desirable that every practitioner interested in this subject should know that the Second Edition of ***"Cook on Stock, Stock-Holders and Corporation Law"*** *is the latest, most comprehensive, and most exhaustive work on Corporation Law. This treatise is written in the belief that the standpoint of the stockholder is the proper standpoint from which to study general Corporation Law. This item is valuable to attorneys who at present may not have cases in Corporation Law, but wish to prepare themselves for that opportunity of betterment which comes to every professional man. Corporation Law is growing, and litigation on the subject is endless and profitable. Mr. Cook's work is complete, in one large volume of over* 1000 *pages;* $6.50 *net, or* $6.75 *postage paid on receipt of price.*

"Sutherland on Statutes and Statutory Construction" *is a new and valuable treatise on an important subject. "The Current Comment and Legal Miscellany" closes its very favorable review of this work by saying: "It is the most scientific and exhaustive work upon the subject of Statute Law that has appeared in recent years, and can safely be recommended, not only as the newest, but also the most scholarly, comprehensive, and accurate work upon the subject of Statute Law." One large volume. Price:* $6.00 *net, or* $6.25 *postage paid on receipt of price.*

"Cobbey on Replevin" *is a complete treatise on the law of Replevin as administered by the American and English Courts, with nearly* 11,000 *citations, and giving universal satisfaction to its thousands of purchasers. Price:* $6.00 *net, or* $6.25 *prepaid.*

"Meachem on Agency," *including a general discussion of the subject, with special chapters on Attorneys, Auctioneers, Brokers, and Factors, is a book with a wider scope than any other work upon the subject. Price:* $6.00 *postpaid on receipt of amount.*

These four books we especially desire to call your attention to and recommend particularly to our customers. THEY ARE MONEY-MAKERS AND TIME-SAVERS. Will be glad to supply circulars, with Table of Contents, on application.

CHASE'S BLACKSTONE.

Commentaries on the Laws of England, in four books, by Sir William Blackstone, Knight, one of the Justices of the Court of Common Pleas; so abridged as to retain all portions of the original work which are of historical or practical value. By George Chase, LL.D., Professor of Municipal Law in the Law School of Columbia College, New York City. Third Edition. 1168 pp. 1890. 8vo., Law Sheep. $6.00 net.

The special additional merits of the Third Edition are as follows:

1. The notes are copious, and the aim has been to make them as clear, systematic, and comprehensive as Blackstone's own text. Many of them have been entirely re-written, so as to embody in them the latest English and American decisions and statutes. Topics too meagrely treated by Blackstone, as Master and Servant, Easements, Fixtures, etc., are here fully developed. The citations are more recent than those to be found in any other edition of Blackstone, and include valuable American decisions from all parts of the country.

2. Important appendices have been added for the special advantage of students. These include a Glossary, defining and explaining words and phrases used by Blackstone, which have a peculiar or technical meaning; a translation of the passages from the Latin, French and other languages, which are found scattered through the Commentaries in great numbers; a full table of English, Irish, Scotch and American Law Reports, with the usual abbreviations referring to them, a Table of English Regnal Years, to show when the various English statutes, cited in the text, were enacted, etc. The Translation fills twenty-five large pages and will be found of special value by students unacquainted with Latin, French, etc., while those whose knowledge of these languages is limited, or has become more or less a faded remembrance, will also find its aid serviceable.

3. Since the first edition was issued, a new and much fuller Index has been added to the work.

Notes upon Lecture XII. XIII—Supplementary: Subjects not discussed elsewhere. Appendix I—The Constitution of the United States. II—Articles of Confederation—1777. III—Resolutions offered by Mr. Randolph. IV—The Pinckney Plan.

Hon J. C. Bancroft Davis has printed Judge Miller's lectures as they came to him, adding a short note to each of these lectures, which in each case will explain itself. He has supplemented a chapter containing references to minor provisions of the Constitution, not discussed in the lectures, and an appendix containing (1) a collated copy of the Constitution with full references to the cases in which it has been construed or discussed; (2) a collated copy of the Articles of Confederation: (3) copies of the Randolph draft for a Constitution and of the Pinckney draft for the same which were submitted to the Convention, May 29, 1787, both of which proved to be of substantial use in the discussions which followed in the Convention.

These lectures have never been published before. They will be of great interest to every student of the Constitution.

KENT'S COMMENTARIES.

THE THIRTEENTH **Authorized Edition** THE THIRTEENTH

Containing all the Invaluable Notes of Judge Oliver Wendell Holmes, Jr., with Additions and Citations of later Cases by Charles M. Barnes.

PRICE REDUCED FROM $20.00 TO $12.00 NET.

The attention of law students and all others having occasion to refer to Kent's Commentaries on American Law—***the greatest legal work the country has produced, and a worthy companion of the older "Commentaries" of Blackstone***—is especially invited to the following reasons for selecting the edition published by Messrs. Little, Brown, & Company, rather than any other: —

1. ***It is the only authorized edition published,***—the only one on which a copyright is paid to the heirs of the distinguished author, who have expended large sums of money in having the work ***re-edited from time to time by the most capable hands, that it might always maintain its original reputation.***

2. ***It is the only edition containing Chancellor Kent's own latest changes and corrections.*** The first edition, which is the basis of all other reprints, and on which the legal copyright has expired, does not represent ***the later and maturer thought of the Chancellor, who lived to personally edit and revise five other editions,***—all of them being to a great extent changed, enlarged, and corrected.

3. ***It is the only edition containing the Notes of Judge Oliver Wendell Holmes, Jr.,*** prepared for the twelfth edition, supplemented by fresh annotations and the citations of ***five thousand additional cases,*** by Charles M. Barnes, Esq., in the thirteenth. The work of Judge Holmes on the edition of 1873 occupied nearly four years of constant labor and research, resulting in an addition to the original work of notes that are admitted to be "in their scientific conception and their practical treatment, in their fulness of learning and their accuracy of statement, worthy of the text and its author." All of these notes are retained in the present edition.

NEGLIGENCE OF

IMPOSED DUTIES, PERSONAL.

HON. CHAS. A. RAY, LL.D, EX-CHIEF-JUSTICE OF INDIANA.

THE SUBJECT.

A new treatise upon the liabilities and obligations imposed by law upon the individual in the exercise of his rights in property and the privileges common to society.

This work covers a field in which arises a large and important portion of present litigation, and which has never heretofore been separately and thoroughly treated. The work is divided into three parts as follows:

THE SCOPE.

PART I.—LAND, DUTIES RESPECTING, AND RIGHTS THEREIN. Covering duties attendant upon the ownership of real estate; injuries to licensee or intruders; rights to lateral support and party walls; the duties of abuttor upon highway; rights of the public in highway; peril to travellers; proofs of negligence; easements in street, including street railway, telegraph and telephone lines, electric motors, drains, electric, gas and water conductors; creation, use and limitation of easements.

PART II.—WATERS, DUTIES RESPECTING AND RIGHTS THEREIN. Including rights in and liabilities from surface water, its care in towns and cities; municipal liabilities; negligence in escape or use of running water; navigable waters, control and care of water front, obstructions; floatable and navigable streams, uses and abuse; diversion or obstruction of water-course—remedies; use of rivers by mill-owners, etc; ferries; fisheries and hunting privileges; easements and their extinguishment.

PART III.—PERSONAL PROPERTY, DUTY OF CARE IN ITS CONTROL—FIRE. Of Domestic animals, negligence in their control; dogs, liability of owner; animals, *ferœ naturæ*, or with contagious disease; cruelty; fire-duties imposed, their negligence, and negligence contributory to injury suffered from fire.

THE AUTHOR.

Hon. Chas. A. Ray, LL.D., Ex-Chief-Justice of the Supreme Court of Indiana, is a gentlemen thoroughly qualified by long experience both upon the Bench, at the Bar, and as a legal writer, to furnish herein a treatise of the utmost practical value to the profession, and no pains have been spared to that end. Abstract discussion is avoided, the author confining himself to the formulation of principles actually established, and fortifying his propositions by copious and discriminating citation of authorities, including the latest cases upon the point involved. More than 9,000 cases are cited, each of which has received careful examination by the author.

AN ESTABLISHED FACT.

ANDERSON'S DICTIONARY OF LAW

Combines in its one large, unpadded volume both the best Law Dictionary and the best Commentary on Law hitherto produced:

Judges, practitioners, professors, editors, writers and publishers declare it.

It is not (1) a work on heraldic, numismatic, metrical, agricultural, horticultural, botanical, geographical, chronological, ethnographical, physiological, pathological, metaphysical, ecclesiastical, ecclesiological, ornithological, piscatorial, zoological, and like nomenclatures.
It is not (2) a chronicle of the Middle Ages.
It is not (3) a Latin or an Anglo-Saxon Grammar.
It is not (4) a lexicon to the dead languages.
It is not (5) a glossary to dismembered foreign phrases.
It is not (6) a compilation on Roman. Norman, Albion, Welsh, Scandinavian, Spanish, Mexican, Persian, Chinese, and other antiquities.
It is not (7) a necrological directory.

ON THE CONTRARY

It is (1) an exhaustive Dictionary of the technical terms found in the text-books and reports which lawyers, judges, and students consult.
It (2) **sets forth** common and peculiar expressions found in wills, deeds, agreements, codes, constitutions, etc., which the courts have construed.
It (3) **gives** the origin of technical terms, (4) correct pronunciations, (5) synonyms and antonyms.
It (6) **translates**, both literally and liberally, the **useful law maxims**, and (7) **illustrates** their meaning and application from thousands of cases.
It (8) **states and expounds**, at length, the principles which constitute "the law" itself in its numerous branches, as a theoretical and as an applied science.
It (9) **contains no repetitions**, in any guise, but discusses each subject *once*, in its best place, with many cross-references from others.
It (10) **bases its definitions and deductions** upon 30,600 citations of decisions, text-books, law periodicals, codes, statutes, constitutions, etc.
It (11) **prefers** Blackstone, Story, Kent, Greenleaf, Bishop, Cooley, Wharton, and Pomeroy to Bracton, Fleta, Spelman, Fortescue, and Lofft; and the United States Supreme Court reports to the Year Books.

"We unhesitatingly indorse it as the most accurate and complete Law Dictionary. The style and manner of its preparation could not be improved upon. No legal word, phrase, or subject seems to have been omitted. It contains exhaustive references, and is accurate in every regard."—CENTRAL LAW JOURNAL.

"As a Law Dictionary it is without comparison; as a book of reference, unequalled. With it alone the practitioner can prepare a brief from the latest and best cases. It is a great work."—CHICAGO LAW JOURNAL.
